SUBJECT INDEX TO VOLUME 36

BIOCHEMICAL
DNA sequence variation, interspecific, 665
discontinuous DNA content variation, *Lathyrus*, 877
amino acids, nectar, larval saliva, trophallaxis, wasp, 1318

BOOKS REVIEWED
Evolution and Variation in Multigene Families, 206
Vicariance Biogeography: a Critique, 207
Conservation and Evolution, 420
An Introduction to Behavioral Ecology, 421
Cultural Transmission and Evolution, 620
Evolution of Vertebrate Endocrine Systems, 627
An Integrated System of Classification of Flowering Plants, 628
Basic Population Genetics, 628
The Darwinian Revolution. Science Red in Tooth and Claw, 630
Systematics and Biogeography; Cladistics and Vicariance, 631
Phylogenetics: The Theory and Practice of Phylogenetic Systematics, 867
Synopsis and Classification of Living Organisms, 868
Genetic Variability, 869
Introduction to Quantitative Genetics, 870
Natural Selection and Social Behavior, 871
Ecología y Genética de la Especiación Animal, 872
Ecological Genetics, 1101
Dobzhansky's Genetics of Natural Populations I-XLIII, 1102
Advances in Cladistics, 1327

CHROMOSOME
translocation heterozygote, *Oenothera*, 63
inversions, Wallace triads, 407
inversions, speciation, 414
diploid, tetraploid, dihaploid, *Panicum*, 596
XO females, reproductive performance, lemming, 601
sex chromosome aneuploidy, meiotic drive, 822
polymorphism, colonization, *Drosophila*, 843
species, differential survivorship, 1315

COMPETITION
microhabitat differences, snail species, 316
niche shifts, Darwin's finches, 637
Darwin finch distributions, 1213
intra- and interspecific, fitness, *Erodium*, 1290

ECOGENETICS
population differentiation, different hosts, *Euphydryas*, 581
experimental, reproductive effort, 742
life history traits, genetics, altitudinal variation, frog, 962
heterogenous environments, phenological adaptation, beetle, 984

EVOLUTION
parallel, chromosomal evidence, shell sculpture, 113
life history, predation, 160
fish color patterns, 178
adjacent populations, sticklebacks, 189
adaptation, environment, copepod, 298
strategy, host castration, bot flies, 416
macroevolution, 425
macroevolution, character change, speciation, 427
macroevolution, development, 444
macroevolution, fossil record, 460
macroevolution, neo-Darwinism, 474
environmental change, periwinkle, 561
gray squirrel behavior, acorn autumn germination, 800
thermal regulation, Protodonata, 1051
evolutionary theory, 1109
speciation and macroevolution, 1119
molecular studies, Darwinism, 1113
punctuated equilibria, taxa duration, 1144
phenotype, Cretacious foraminifer, 1182
life history, predation, guppies, 1236

GENE FLOW
transient individuals, box turtles, 617

HYBRIDIZATION
crickets, 535
lab, spider mites, 553
contact zone, genetic interaction, bat, 852, 863

ISOLATION
sexual, hybrid sterility, *Drosophila*, 121
mate recognition, mechanical isolation, damsel flies, 243

MIMICRY
aposematic color, individual selection, 998

PHYLOGENY
constant extinction rate, fallacy, 610
seed plants, evolution, inclusive fitness, 713
behavioral characters, spiders, 1067

REPRODUCTION-ANIMAL
female choice, genetic model, 1
sex determination, sex ratio, model, 13
sex ratio, *Drosophila*, 27
sexual reproduction, population structure, selection, 35
sperm competition and storage, dwarf surf-perch, 44
protandry, butterfly, 56
self-fertilizing slug, gametic disequilibrium, 80
sexual, weevil, 251
size, mating success, resource structure, fly, 307
sex determination, temperature, turtle, 326
sex ratio, heritability, 333
breeding synchrony, snow goose, 342
pinniped breeding systems, cold, 409
sex ratio, bluebird, 615
heterozygosity, developmental stability, 768
first male sperm priority, spider, 777
reproductive synchrony, snow geese, 786
population synchrony, mayflies, 810
parental behavior, clutch size, mating system, lapwings, 1030

SUBJECT INDEX TO VOLUME 36

BIOCHEMICAL
DNA sequence variation, interspecific, 665
discontinuous DNA content variation, *Lathyrus*, 877
amino acids, nectar, larval saliva, trophallaxis, wasp, 1318

sex ratio, heritability, 333
breeding synchrony, snow goose, 342
pinniped breeding systems, cold, 409
sex ratio, bluebird, 615
heterozygosity, developmental stability, 768
first male sperm priority, spider, 777
reproductive synchrony, snow geese, 786
population synchrony, mayflies, 810
parental behavior, clutch size, mating system, lapwings, 1030

unisexual hybrid fish, thermal adaptation, 1041
asymetric breeding preference, evolution, 1096
parental investment, season change, bee, 1098
sex and variability, common brown butterfly, 1251

REPRODUCTION-PLANT
pollinator foraging, *Digitalis*, 70
African figs, *Drosophila*, 141
outcrossing, floral characters, *Gilia*, 352
genetic variation, breeding system, *Gilia*, 361
sex dimorphism, *Aralia*, 371
mating system, variation, *Festuca*, 591
mating system, environment, genetic, grass, 734
seed dispersal, population differentiation, *Mimulus*, 753
mass flowering, outcrossing, 762
heterodichogamy, inheritance, walnuts, 892
intrasex selection, pollen-stigma segregation, *Wahlenbergia*, 903
maternal reproductive effort, bird dispersal, 1299
seed dispersal, dioecism, 1322, 1325

SELECTION
pupation site, swallowtail, 152
group, individual, 271
host modification, insect parasite, 283
plant populations, soil types, 289
direct and correlated response, rat, 677
group, individual, model, 832
group, migration, small population differentiation, 949
density dependent, sexual, assortative mating, soldier beetle, 1227

SPECIATION
morphometric evidence, *Drosophila*, 132
rapid sexual isolation, model, 213
rates, morphological divergence, 224
sympatric *Enchenopa*, ecology, behavior, 233
parapatric pleiotropy, 263
hybrid origin, diploid, *Stephanomeria*, 1158
biochemical, population genetics, 1168

VARIATION-GENETIC
G-3-PDH clines, *Drosophila*, 86
functional enzymic evolution, barracudas, 97
queen relatedness, polygynous ant, 107
parallel, sympatric congeners, 200, 204, 205
allozymes, parent-daughter species pair, *Coreopsis*, 379
population structure, pitch pine, 387
extreme, Red Sea gastropods, 403
genetic distance, sibling species, *Drosophila*, 517
divergence, sympatric, leaf miner, 523
maintenance, polyembryony, conifers, 725
reaction norms, *Drosophila*, 934
protein divergence, electrophoresis techniques, birds, 1003
bird song dialect populations, 1020
heterozygosity, effective population size, 1059
niche breadth, abundance, drosophillid flies, 1265
aphids, plant phenotypes, demography, 1276
population structure, evolution, mole rats, 1283

VARIATION-MORPHOLOGY
tarsus length heritability, blue tit, 418
cranial integration, development, function, 499
trophic morphs, intraspecific, cichlids, 658
neoteny, hummingbird flower, *Delphinium*, 699
body shape, organismal evolution, 914
allometry, static, growth, mice, 1200

EVOLUTION

INTERNATIONAL JOURNAL OF ORGANIC EVOLUTION

Volume XXXVI, 1982

Society for the Study of Evolution

CONTENTS OF VOLUME 36

ADAMS, W. T. AND R. W. ALLARD. Mating system variation in *Festuca microstachys*. 591
ALAHIOTIS, S. N. (see Kilias, G.) 121
ALBERCH, P. (see Oster, G.) 444
ALLARD, R. W. (see Adams, W. T.) 591
ALONSO, G. (see Fontdevila, A.) 843
ALVAREZ, GONZALO. (see Zapata, Carlos) 407
ALTUKHOV, YU. P. Biochemical population genetics and speciation 1168
ANDERSON, D. G. (see Oakeshott, J. G.) 86
ANDERSON, P. R. (see Oakeshott, J. G.) 86
ANTONOVICS, JANIS. (see Primack, Richard B.) 742
AOKI, KENICHI. A condition for group selection to prevail over counteracting individual selection. 832
AQUADRO, CHARLES F. AND JOHN C. AVISE. Evolutionary genetics of birds. VI. A reexamination of protein divergence using varied electrophoretic conditions. 1003
ARCHIE, J. W. (see Carson, H. L.) 132
ARNOLD, JONATHAN. (see Harrison, Richard G.) 535
ATCHLEY, WILLIAM R., J. J. RUTLEDGE AND DAVID E. COWLEY. A multivariate statistical analysis of direct and correlated response to selection in the rat. 677
AUSTAD, STEVEN N. Fist male sperm priority in the bowl and doily spider, *Frontinella pyramitela* (Walckenaer) 777
AVISE, JOHN C. (see Aquadro, Charles F.) 1003
AVISE, JOHN C. (see Douglas, Michael Edward) 224
BAKER, HERBERT G. (see Hunt, James H.) 1318
BAKER, IRENE. (see Hunt, James H.) 1318
BAKER, MYRON CHARLES, DANIEL B. THOMPSON, GREGORY L. SHERMAN, MICHAEL A. CUNNINGHAM AND DIANA F. TOMBACK. Allozyme frequencies in a linear series of song dialect populations. 1020
BARTON, N. H. The structure of the hybrid zone in *Uroderma bilobatum* (Chiroptera: Phyllostomatidae). 863
BAWA, K. S. Seed dispersal and the evolution of dioecism in flowering plants—a response to Herrera. 1322
BAWA, K. S., CHRISTINE R. KEEGAN AND ROBERT H. VOSS. Sexual dimorphism in *Aralia nudicaulis* L. (Araliaceae). 371
BECKENBACH, ANDREW T. (see Bryant, Stephen H.) 27
BEILES, AVIGDOR. (see Nevo, Eviatar) 1283, 1315
BELL, MICHAEL A. Differentiation of adjacent stream populations of threespine sticklebacks. 189
BENENSON, ISAAC E. (see Gileva, Emily A.) 601
BERVEN, KEITH A. The genetic basis of altitudinal variation in the wood frog *Rana sylvatica*. I. An experimental analysis of life history traits. 962
BEST, LYNN S. AND PAULETTE BIERZYCHUDEK. Pollinator foraging on foxglove (*Digitalis purpurea*): a test of a new model. 70
BIERZYCHUDEK, PAULETTE. (see Best, Lynn S.) 70
BOER, R. DE. Laboratory hybridization between semi-incompatible races of the arrhenotokous spider mite *Tetranychus urticae* Koch (Acari: Tetranychidae). 553

BORGIA, GERALD. Experimental changes in resource structure and male density: size-related differences in mating success among male *Scatophaga stercoraria*. 307
BOROWSKY, RICHARD. The use of parallel patterns to test neutrality: a reply to Varvio-Aho and Pamilo. 204
BRADLEY, BRIAN P. (see Ketzner, Phyllis A.) 298
BRADLEY, DAVID. (see Leamy, Larry) 1200
BRITTEN, R. J. (see Grula, J. W.) 665
BROWN, JERRAM L. Behavioral ecology for sophomores. (review) 421
BRYANT, STEPHEN H., ANDREW T. BECKENBACH AND GARY A. COBBS. "Sex-ratio" trait, sex composition, and relative abundance in *Drosophila pseudoobscura*. 27
BULGER, ARTHUR J. AND R. JACK SCHULTZ. Origin of thermal adaptations in northern versus southern populations of a unisexual hybrid fish. 1041
BULL, J. J. (see Bullmer, M. G.) 13
BULL, J. J., R. C. VOGT AND M. G. BULMER. Heritability of sex ratio in turtles with environmental sex determination. 333
BULL, J. J., R. C. VOGT AND C. J. MCCOY. Sex determining temperatures in turtles: a geographic comparison. 326
BULMER, M. G. (see Bull, J. J.) 333
BULMER, M. G. AND J. J. BULL. Models of polygenic sex determination and sex ratio control. 13
CABRERA, V. M. (see González, A. M.) 517
CARSON, H. L., F. C. VAL, C. M. SIMON, AND J. W. ARCHIE. Morphometric evidence for incipient speciation in *Drosophila silvestris* from the island of Hawaii. 132
CASE, SUSAN M. (see Cherry, Lorraine M.) 914
CHAMBERS, G. K. (see Oakeshott, J. G.) 86
CHAMBERS, STEVEN M. Chromosomal evidence for parallel evolution of shell sculpture pattern in *Goniobasis*. 113
CHARLESWORTH, BRIAN, RUSSELL LANDE AND MONTGOMERY SLATKIN. A neo-Darwinian commentary on macroevolution. 474
CHERRY, LORRAINE M., SUSAN M. CASE, JOSEPH G. KUNKEL, JEFF S. WYLES AND ALLAN C. WILSON. Body shape metrics and organismal evolution. 914
CHEVERUD, JAMES M. Phenotypic, genetic, and environmental morphological integration in the cranium. 499
CLARKE, BRYAN. (see Murray, James) 316
CLAY, KEITH. Environmental and genetic determinants of cleistogamy in a natural population of the grass *Danthonia spicata*. 734
COBBS, GARY A. (see Bryant, Stephen H.) 27
COOKE, FRED. (see Findlay, C. Scott) 342
COOKE, FRED. (see Findlay, C. Scott) 786
COUTURIER, GUY. (see Lachaise, Daniel) 141
COWLEY, DAVID E. (see Atchley, William R.) 677
CUNNINGHAM, MICHAEL A. (see Baker, Myron Charles) 1020
CRAIG, DAVID M. Group selection versus individual selection: an experimental analysis. 271
CRAWFORD, DANIEL J. AND EDWIN B. SMITH. Allozyme variation in *Coreopsis neucensoides* and *C. nuecensis* (Compositae), a progenitor-derivative species pair. 379
DAVIDSON, E. H. (see Grula, J. W.) 665
DAVIES, T. M. (see Snaydon, R. W.) 289

DHONDT, ANDRÉ A. Heritability of blue tit tarsus length from normal and cross-fostered broods. 418
DOUGLAS, MICHAEL EDWARD AND JOHN C. AVISE. Speciation rates and morphological divergence in fishes: tests of gradual versus rectangular modes of evolutionary change. 224
EBERHARD, WILLIAM G. Behavioral characters for the higher classification of orb-weaving spiders. 1067
ELLSTRAND, NORMAN C. AND DONALD A. LEVIN. Genotypic diversity in *Oenothera laciniata* (Onagraceae), a permanent translocation heterozygote. 63
ENDLER, JOHN A. Convergent and divergent effects of natural selection on color patterns in two fish faunas. 178
ENDLER, JOHN A. Puberty rites of biogeography. (review) 207
ENDLER, JOHN A. (see Reznick, David) 160
FELSENSTEIN, JOE. A theme that will be repeated. (review) 206
FINDLAY, C. SCOTT AND FRED COOKE. Breeding synchrony in the lesser snow goose (*Anser caerulescens caerulescens*). I. Genetic and environmental components of hatch date variability and their effects on hatch synchrony. 342
FINDLAY, C. SCOTT AND FRED COOKE. Synchrony in the lesser snow goose (*Anser caerulescens caerulescens*). II. The adaptive value of reproductive synchrony. 786
FITCH, WALTER M. The challenges to Darwinism since the last centennial and the impact of molecular studies. 1133
FITCH, WALTER M. Phylogenetics: the theory and practice of phylogenetic systematics. (review) 867
FOLTZ, DAVID W., BARRY M. SCHAITKIN AND ROBERT K. SELANDER. Gametic disequilibrium in self-fertilizing slug *Deroceras laeve*. 80
FONTDEVILA, A., A. RUIZ, J. OCAÑA AND G. ALONSO. Evolutionary history of *Drosophila buzzatii*. II. How much has chromosomal polymorphism changed in colonization? 843
FOX, J. F. Adaptation of gray squirrel behavior to autumn germination by white oak acorns. 800
FRITZ, ROBERT S. Selection for host modification by insect parasitoides. 283
